

AVINASH KUMAR KR

BE Graduate

☎ +91-9655252988 ✉ avinashwolverine500@gmail.com 🔗 linkedin.com/in/avinashkumar

Summary

BE Graduate with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Education

B.E. Electronics and Communication Engineering (ECE)

Graduated: 2024

SRM TRP ENGINEERING COLLEGE, Trichy, Tamil Nadu, India

CGPA: 8.0 / 10

Skills

Programming & Querying: SQL, Python, HTML, CSS, Prompt Engineering

Tools: Advanced MS Excel, Power BI, Eclipse IDE

Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics, Web Development, Role-Based & Constraint-Based Prompting , Chain-of-Thought Reasoning (Step-by-step breakdown)

Experience

Prompt Engineering Intern

January 2026

Excelerate (Remote)

Tools Used: ChatGPT, Gemini, Midjourney

- **Prompt Design & Optimization :** Engineered and refined educational AI prompts through an iterative testing process (Baseline → Refined → Final), achieving a 92% improvement in structured response quality
- Integrated evidence-based learning frameworks—including **Bloom's Taxonomy , Cognitive Load Theory , and Scaffolding** to transform generic AI outputs into effective, level-appropriate learning modules

Projects

Do Connect - Microservices Q&A Platform: Capstone Project | *Web Development*

December 2025

- Developed a full-stack microservices application using Spring Boot and Spring Cloud. Architected independent User, Admin, and Email services orchestrated by Eureka Server
- Built a custom, responsive frontend dashboard using HTML, CSS, and JavaScript with session-based authentication.
- Implemented RESTful APIs for content moderation, private messaging, and automated email notifications by creating isolated data persistence layers using H2 In-Memory Databases for each microservice to ensure loose coupling.

Sales Dashboard for Regional Performance | *SQL, Power BI, MS Excel*

June 2025

- Queried and joined 3 sales-related tables covering over 25,000 rows across 12 months and 5 regions using optimized SQL joins to create consistent, analysis-ready datasets.
- Planned implementaion of KPIs and Smart Excel templates embedded with lookup functions and pivot logic, saving 40% reporting time across 4 departments.

Wireless Power Transfer System for EV | *Robotics, Embedded systems, Renewable Energy Integration*

April 2024

- Designed a prototype for wireless power transfer using theory of transformer induction and adaptive robotic technology. WPT system uses solar energy to produce electric voltage to charge Electric Vehicles
- Programmed microcontrollers (Arduino/STM32) for automation, feedback control, and real-time system monitoring using MATLAB simulation tool.

Certifications

- Data Science Fundamentals Course (Qspiders Training Institute : June 2024 - March 2025)
- Prompt Engineering Internship (Excelerate)
- Advanced Microsoft Excel - (Udemy)
- Power BI for Data Visualization (PwC Switzerland)
- Data Analysis Online Simulation (Accenture North America)
- Quantitative Research Basics (JPMorgan Chase & co)
